Account name:	_____	
Sort code	<input type="text"/>	<input type="text"/>
Account number	<input type="text"/>	<input type="text"/>
Bank or building society name:	_____	

The small print – please read: By completing this form you are entering into a legally binding business contract with British Gas to fix your prices for the chosen period, subject to our Terms and Conditions, which requires the energy to be totally or mainly for non- domestic use. You won't be able to end the energy plan until the full fixed price period has ended, nor will you be able to transfer to another supplier, unless our Terms and Conditions say otherwise. Please remember, after the end of the fixed period if you have any outstanding bills we may stop you from transferring to a new energy plan or another supplier until you have paid all the money you owe, full details of objection reasons are set out in our T&C's. We'll send you details of your options and prices around 60 days before the end of this Fixed Price Energy Plan. If you do nothing at the end of your Fixed Price Energy Plan, you'll move onto our Variable Price Plan. These rates are not fixed and we may change them.

If this meter is not currently supplied by us, we'll be applying to transfer your supply to us to begin within at least the next 21 days. This may change if your transfer takes longer than expected or if you have agreed a start date that is further in the future. If you haven't done so already, you'll need to let your current supplier know you'll be leaving them.

Capacity charge: Cost charged by your local Distribution Network Operator (DNO). The rate applies as a pence/kVA/day rate, where the kVA refers to the Maximum Import Capacity you've agreed with your DNO. An excess capacity charge will be applied if you exceed your agreed supply capacity. This charge is applied by your DNO and is passed on to you through your bill. Please be advised you can contact your DNO at any time to check your agreed supply capacity and also speak to them if there is a change in your business energy requirements.

For more information about the mix of fuels used to generate electricity, simply visit www.britishgas.co.uk/about-us

Any concerns? You can access details of our complaints handling procedure at www.britishgas.co.uk/business/complaints
